- High Speed Redundant Internet and 3 PC's**
- Late Model, reliable vehicle**

In my time since early 2006 working for a large vendor in the Chicago area, I have learned the importance of timely, accurate and complete results, including good photos. Direct Contact will be attempted when requested, as will Saturday and Evening visits. I maintain a professional appearance, clean vehicle and know the greater NW area of Chicagoland very well.

My previous work experience is focused in the futures and commodities markets since 1993, with trading floor execution and back office experience. My most recent employment centered on automated trading systems, risk management and execution.

Zip Codes Serviced—others nearby available upon request depending on expected workload
